

SPECIAL APPLICATIONS INDEX

Please contact QAM's Technical Support when you come across these applications:

Advanced Dust Collector Technologies, and Engineering Specifications	Spice Dust
Air-lock Bridging	Sugar Dust
Aluminum De-burring	Thermal Spray
Aluminum Plants (Primary)	Titanium Dust
Aluminum Pot Lines	Tobacco Dust
Arc Spray, Cartridge collectors	Wet Collectors, surface tension
Asphalt Aggregate	Welding
Atmospheric Filtration	Wood Pulverizers
Bin Vents	Woodworking Dust
Brass Furnace, Fire hazards	
Cartridge dust collectors	
Folding of pleats in cartridge style filters	
Low Emission Guarantees	
Spherical Dust	
Tandem design	
Cement Plants	
Clinker cooler vent	
Dust Behavior	
Dust Holding Capacity	
Freezing of valves in dust collectors	
Fumes; welding, laser, plasma arc	
Glass dust	
Grain and Flour Dust	
Gypsum Dust	
High Temperature Cutting	
Incinerators, Boilers and related technologies	
Material Handling and Transfer Points	
Metalizing Spray	
Moisture and freezing in pulse jet collectors	
Pharmaceutical dusts	
PTFE laminated media	
Pulverizing charcoal (hammermill)	
Seals, gaskets and bag installation	
Silo Vents	
Smoke, dry and liquid
