GO GREEN! with our environmentally friendly features

## Ultra-Flow™, BAGHOUSE

### ➤ Self-Cleaning Pulse-Jet Dust Collector

- Advanced Technology , High-Ratio Design
- 90% less dust emissions, efficiency allows recirculation of clean air to work area
- 15-25% lower purchase cost
- 50-80% lower maintenance
- 25-35% lower power consumption
- 25% smaller footprint

Baghouse

## UltraKlean™, CARTRIDGE

### ➤ The Only Universal Application Self-Cleaning Pulse-Jet Dust Collector

- Advanced Technology, High-Ratio Design
- Half the number cartridges needed
- Cartridge life is 3-5 times longer
- 10-20% lower power consumption

UltraKlean

## QUENCHER™

### ➤ Spark Arrestor & Cooler

- Prevents fires & explosions
- Static device, no moving parts
- Easy to use inline device, no additional collection point needed
- Air / Gas Mixing

Quencher

## REBUILDS, of Existing Collectors

### ➤ 90% of existing bag houses & cartridge collectors qualify.

- Increase efficiency up to 400%
- Increase filter life 3-10 times
- Increase capacity up to 75%
- Based on Advanced Technology

Downdraft

## WET Hazardous Dust Collector

- Help meet NFPA requirements for Aluminum, Magnesium, titanium dusts
- All stainless steel construction
- Automatic water level control
- Spark laden dust control

Ceiling-hung

## Downdraft Table & Booth

## Portable Dust and Fume Collector

## Ceiling-Hung Cartridge Dust and Fume Collector

## Booster - Duct Cleaner

Portable
